

## On returning after a journey

When a person returns from a journey they make the same supplication as when they were about to travel, except that they add:

1. There is no god but God, alone without associate. His is the dominion, to Him is all praise, and He has power over all things.
2. We return as repentant, worshipping, prostrating servants, our Lord, and You we praise.
3. God has fulfilled His promise, supported His servant, and Who alone defeated the troops (this is repeated several times).
